PROFESSIONAL SUMMARY

Third-year Bachelor of Science in Information Technology (BSIT) student from the Philippines who enjoys turning ideas into working software and learning how things run behind the scenes. Hands-on experience in C programming and front-end web development with HTML, CSS, and JavaScript, with a growing interest in full-stack development and building complete, user-friendly systems.

EDUCATION

Bachelor of Science in Information Technology | 2024 - Present

Polytechnic University of the Philippines (PUP) - Calauan Campus

PROJECTS

PUP Lost and Found Management System | Web Development Project (2026)

Tech Stack: HTML, CSS, JavaScript | [GitHub](#)

- Developed a single-page web system that helps students, faculty, and staff report and track lost and found items within the university, built with a team of four.
- Built separate Report Lost and Report Found forms (item name, description, location, optional photo) that instantly add entries as cards to a shared item list.
- Implemented JavaScript-based navigation across Home, Report Lost, Report Found, View Items, and About sections without page reloads, styled with a responsive layout.

Jack N Poy (Rock, Paper, Scissors) | Midterm Project, Computer Programming 1 (2026)

Tech Stack: C | [GitHub](#)

- Created a console-based Rock, Paper, Scissors game in C with Player vs Player and Player vs Computer modes, plus a credits screen.
- Applied loops, switch statements, and conditional logic to run a first-to-3 match with round tracking, a live scoreboard, and input validation.
- Used rand() seeded with time to generate randomized computer moves, and designed an ASCII-art title and menu for the command-line interface.

TECHNICAL SKILLS

- Programming Languages:** C, JavaScript
- Web Development:** HTML, CSS, JavaScript, Responsive Layout Design, DOM Manipulation
- Tools and Environment:** Git, GitHub
- Core Competencies:** Problem Solving, Teamwork and Collaboration, Debugging, User Interface Design
